AMIT SINGH

Greater Noida, India | 9415164489 | amitsingh.115up@gmail.com| GitHub: github.com/Amit769 | LinkedIn

PROFESSIONAL SUMMARY

B.Tech Computer Science student with hands-on experience in Python, Java, SQL, and backend development. Experienced in building REST API-based applications, developing data processing pipelines, and deploying machine learning models using FastAPI. Strong foundation in problem-solving, data structures, algorithms, and object-oriented programming, with an interest in building reliable and scalable software applications.

EDUCATION

B.Tech – Computer Science & Engineering | IILM University, Greater Noida | 2023–2027

12th Class | J.B. Academy, Faizabad | 2022–2023

10th Class | J.B. Academy, Faizabad | 2020–2021

INTERNSHIP EXPERIENCE

Data Analyst Intern | Bluestock Fintech | June 2026

- Developed an end-to-end analytics platform using Python, SQL, and Power BI for financial data analysis.
- Performed ETL, data cleaning, exploratory data analysis, and interactive dashboard development.
- Automated NAV data ingestion from public APIs with logging, error handling, and scheduling.
- Generated interactive reports, HTML summaries, and portfolio insights to support data-driven investment analysis.

Web Developer Intern | YBI Foundation | June 2023 – July 2023

- Developed and maintained web pages and web application components using modern web technologies.
- Collaborated with front-end developers to support API consumption and efficient data flow.
- Gained hands-on experience with ReactJS and C programming/web development tools.

ACADEMIC PROJECTS

1. Crack Detection in Mines and Tunnels Using Deep Learning | Mar 2026

Technologies: Python, TensorFlow, CNN, FastAPI, Deep Learning Model

- Developed and trained a CNN-based image classification system for structural crack detection in mines and tunnels.
- Achieved 99.45% validation accuracy and 99.54% training accuracy on the project dataset.
- Deployed the trained TensorFlow model with FastAPI to provide real-time image predictions.
- Processed uploaded images and highlighted detected cracks to support early risk identification.

2. Mutual Fund Analytics Platform | June 2026

Technologies: Python, Pandas, NumPy, SQL, Power BI, Streamlit, Plotly, Matplotlib, SciPy, Git/GitHub

- Built a financial analytics platform for data ingestion, analysis, dashboarding, and reporting.
- Implemented risk metrics, performance evaluation, forecasting, and portfolio optimization workflows.
- Automated ETL pipelines and created interactive dashboards and reports for investment analysis and business intelligence.

TECHNICAL SKILLS

Programming: Python, Java,

Data & Analytics: Pandas, NumPy, Power BI, Excel, Matplotlib, Plotly,

Machine Learning: Machine Learning, Deep Learning, CNN, TensorFlow

Web Technology: HTML, CSS, ReactJS

Databases: PostgreSQL, Apache, Hadoop

API Development: REST APIs, FastAPI

Tools: Git, GitHub, Data Structures and Algorithms

CERTIFICATIONS

- Data Science and ETL Tools – Coursera | Dec 2025
- Python Fundamentals – Infosys | Mar 2025
- Data Science – Internshala | Jan 2025
- Java Certification – Coursera | Sep 2024

SEMINARS / WORKSHOPS / CONFERENCES

- Cyber Security Workshop – IILM University | Oct 2024
- Cloud Computing Workshop – IEEE Conference | Sep 2025
- IEEE International Conference on AI and Cyber Security | Apr 2026
